

Look's Bleach ®

Look's Bleach ®

Compositions

Creme: Water; Hydrogen Peroxide; Glyceryl Stearate; Isopropyl Myristate; Stearyl Stearate; Propylene Glycol; Aloe Vera Gel; Stearic Acid; Stearamidopropyl Dimethylamine; Phosphoric Acid. Accelerator: Ammonium Bicarbonate

Indications

Acts as an Antiseptic.

Purpose

Creme Bleach

Uses

Lightens excess dark hair.

Directions

Bleaching: Wash area to be bleached with soap and cold water; dry. With a spatula, measure about one quarter teaspoon powder and place on tray. Clean spatula. Measure about one half teaspoon crème. Blend powder and crème well. Apply mixture with spatula covering hair completely. Keep mixture on for about 10 minutes. Remove with spatula. If hair is not completely bleached, reapply the mixture for another 5 to 10 minutes. For large areas mix approximately one part powder to two parts crème. In the interest of economy, mix enough for one arm, bleach, remove mixture with spatula and place on the other arm. Jolene leaves skin smooth, hair pale and soft. For bleaching brows, follow the same directions. Do not permit mixture to fall into eyes. If product comes into contact with eyes, rinse with cold water immediately. Keep out of reach of children.

Warnings

Before using this product, always make a preliminary patch test to see if you are or have become allergic/sensitive to any ingredient. Simply mix a small amount of the product as described below and apply to about a one inch square area of your inner arm. After 10 minutes wash the mixture off with cold water. Wait 24 hours. If redness, irritation or eruption appears, do not use the product. If there are no signs of a reaction, use Jolene as directed. Do not apply Jolene after a hot bath or a steam filled room. Open pores can create sensitivity. Do not expose areas to which Jolene has been applied to intense or prolonged sunlight for a period of 24 hours after application. Do not apply if skin has cuts or abrasions; postpone use until skin is fully healed. Do not use near eyes or other sensitive areas. Do not return mixed ingredients to jar or vial. Always close both the jar and vial after using. Avoid contact with eyes. Rinse with water immediately if product comes into contact with eyes.
